Good Organisation (Responsible Learner)

Top 10 Tips for Good Organisation

Being disorganized can be a real problem. It can mean that you miss out on the things you really want to do. It can mean that you can't find things and that you forget important things. It can also lead to you feeling worried or overwhelmed about all the things you need to do.

Being organised means you can always find the things that you need and you know what you need to do and when you need to do it. If you are organised you can relax and enjoy things more.

Here are some tips about how to be more organised.

1. Get to school on time
2. Use your diary.
3. Tidy your bookshelf and your room.
4. Keep your school bag tidy
5. Develop before and after-school routines
6. Keep your tub clean and organised
7. Tidy up your desk
8. Label your things
9. Have a place for everything
10. Clean up after yourself.

UNSATURATED FATS

Unsaturated fats are an important part of a healthy diet. These fats help reduce the risk of heart disease and lower cholesterol levels (among other health benefits) when they replace saturated fats in the diet.

There are two main types of unsaturated fats:

Polyunsaturated fats:

- **omega-3 fats which are found in fish, especially oily fish**
- **omega-6 fats which are found in some oils such as safflower and soybean oil, along with some nuts, including brazil nuts.**
- **Monounsaturated fats:**
- **found in olive and canola oil, avocados and some nuts, such as cashews and almonds.**
