

## **Excursions**

### **Purpose**

To link the outside world with the student's schooling through direct experiences.

To recognise the educational value of learning in different environments

### **Guidelines**

The excursion program will be developed in the context of whole school planning.

Considerations of cost, frequency relevance to curriculum and student accessibility will be integral to the planning process.

Links with local events and institutions will be encouraged.

"Systems and Procedures for Excursions", and "First Aid requirements" as detailed in the School Occupational Health and Safety Manual will be adhered to.

DET guidelines as set out in the Schools of the Future Reference Guide (4.4.2) will be followed.

Feedback from students and parents will be encouraged to assist with further planning.

### **Evaluation**

In line with whole school plan.
